Unforeseen Need (250 words)	<p>In November 2014, the Albanian Parliament established an ad hoc parliamentary Commission on Justice Reform. It confirmed the increasing pressure from the European Union and clear messages from the main European capitals to expeditiously adopt a comprehensive reform, including constitutional amendments. This process is the most important legislative reform since the approval of the Constitution in 1998.</p> <p>A group of legal experts, both domestic and international will assist the ad hoc Commission. Recognising the Foundation's role, the chair of the parliamentary Commission submitted a request for support for expertise and financial support; the Parliament and OSFA signed a memorandum of understanding.</p> <p>The need is time-sensitive because the parliamentary committee for the reform is already in place.</p>
